

The University of Connecticut is requesting help from wheelchair users.

They are conducting research on wheelchair user's opinions pertaining to wheelchair technology and services. The survey is about 40 questions, takes 10 minutes to complete, and includes a chance to win a \$50 Amazon.com gift card. Your participation in this survey will directly contribute to an increased awareness of problems faced by wheelchair users.

The survey will be available for the next two weeks, so if you wish to participate or know someone who might like to participate, time is short.

We are requesting to see the results and conclusions and will be happy to share them with you.
